“Alone in the Wilderness”
A BOB SWERER PRODUCTION

The story of one man’s dream to live in the Alaskan wilderness, Richard Proenneke at the age of 51 made his mark as a self-sufficient craftsman using materials from the land to build a cabin and document the activities and explorations that would span more than thirty years.

This hour long video will captivate you with the natural beauty and wildlife that Richard captured on film. Join us for food and fun at the Campton Town House.
