“Bees, If You Please”

Presented by: Jim Stafursky

Jim Stafursky was a wealth of knowledge at Old Home Day so we are excited to have him present at September’s program night. He will outline a year in the life of a beekeeper, giving information about bees and beekeeping. Jim is a resident of Thornton and has been beekeeping for six years.

The presentation will be at the Old Town Hall in Campton, which is handicap accessible, and open to the public. Refreshments will be served. For information about the Society, check our web site at www.camptonhistorical.org
