"The History of Franconia Notch"

Presented by: Dan Heyduk

From glacial times to the present, New Hampshire's Franconia Notch has seen dramatic changes. Its natural wonders and resources - both enduring and fragile - have attracted people with very different visions. The story of the Notch includes geologists and naturalists, teamsters and tourists, hotel entrepreneurs, loggers, conservationists, artists, hikers and skiers. Each found a place there, while nature and time have kept their enduring grip.

Now retired, Dan Heyduk did anthropological and archaeological research in South America, was a college professor, and ran educational programs worldwide, before settling in New Hampshire.
